2025 IONIQ 5 N Overview

Hyundai's Most Powerful Production Vehicle

IONIQ 5N combines the IONIQ 5 model's Electrified-Global Modular Platform (E-GMP) with N motorsport technologies and leverages N expertise from electrified 'Rolling Labs'.

Mechanical

- Electric powertrain – 601 hp / 448 kW (223 hp / 166 kW front motor + 378 hp / 282 kW rear motor); Dual Motor all-wheel drive
- N Grin Boost (NGB) (overboost) – 641 hp / 478 kW (235 hp / 175 kW front motor + 406 hp / 303 kW rear motor) – increased power for 10 seconds

IONIQ 5 N High-Performance Vehicle Dedicated Features¹

- N e-Shift
- N Active Sound +
- N Launch Control
- N Pedal
- N Torque Distribution
- N Grin Boost
- N Racetrack Mode – including Sprint/Endurance
- N Battery Preconditioning
- N Drift Optimizer – including Torque Kick
- Left Foot Braking
- Track SOC
- Regenerative Brake Maximization

Exterior

- Lowered ground clearance to enhance stability and aerodynamics
- N-Exclusive elements optimized for track driving
- Electrified N-Exclusive 'Luminous Orange' accents
- 21-inch forged aluminum wheels
- N-Exclusive wing-type spoiler
- N-Exclusive black bumper cover with checkered-flag-reflecting graphics
- Air curtains and active air flaps for extra cooling

Interior

- Bucket seats with reinforced bolsters
- A cockpit fit for high-performance driving
- N buttons to set desired drive mode
- USB-C connectivity for everyday use
- Fixed center console with padding
